

Course Agenda

Advanced Regulating Gaming Technology *

Day One:

9:00 • Welcome & Introduction
9:15 • Intro to NIGC
10:00 • Electronic Gaming Machines
10:50 • Break
11:00 • Electronic Gaming Machines
12:00 • **Lunch** (on your own)
1:00 • Electronic Gaming Machines

1:50 • Break
2:00 • Gaming Forensics
2:50 • Break
3:00 • Gaming Forensics
3:50 • Break
4:00 • Gaming Forensics
4:30 • Review, Question & Answer

Day Two:

9:00 • Welcome & Introduction
9:05 • Class II Gaming System Verification
9:50 • Break
10:00 • Progressive
10:50 • Break
11:00 • Progressive
12:00 • **Lunch** (on your own)

1:00 • IT Threats for Casinos
1:50 • Break
2:00 • IT Threats for Casinos
2:50 • Break
3:00 • Workshop 4
3:50 • Break
4:00 • IT Threats for Casinos
4:30 • Review, Question & Answer

Day Three:

9:00 • Welcome & Introduction
9:05 • Game Authorization Terminal
9:50 • Break
10:00 • Game Authorization Terminal
10:50 • Break
11:00 • Class II Technical Standards
12:00 • Course Close

*Times subject to change

Course Rationale

The National Indian Gaming Commission (NIGC) Advanced RGT Course is designed to provide an advanced knowledge of skills to prepare all staff to work together to effectively understand and meet requirements. Gaming staff that have been working in the gaming industry are in need of advanced training to stay current with advances in technology within the gaming environment. The NIGC Advanced RGT Course creates a learning environment in which staff will have the opportunity to learn about and gain knowledge of the roles, responsibilities, hardships, and challenges they may encounter.

NIGC's targeted training will provide instruction in areas such as the verification of Class II gaming machines, the technical standards required to be in compliance with Class II gaming, gaming forensics and G2S protocol. Training will include an emphasis on compliance and professional development in all subjects. Improved staff capability and knowledge will directly impact both the staff member and their program organizational climate.

As gaming operations strive to keep up with the ever evolving technological advances in the gaming environment. The advance RGT course intent is to provide current and relevant training, to ensure staff is better equipped to meet these challenges.

Course Description

The Advanced Regulating Gaming Technology Course will provide instruction central to understanding the unique gaming machine technology structure and the importance of close monitoring and compliance in the success of the casino meeting requirements. The course is designed for novice and veteran staff. The course will offer instruction in the following content areas:

The National Indian Gaming Commission

An information block of learning designed to clarify the true purpose and make-up of the National Indian Gaming Commission (NIGC). Attendees will be informed on the processes and make-up of the agency and the working processes involved as NIGC works to support Indian Country and tribal gaming enterprises to facilitate compliance with the Indian Gaming Regulatory Act (IGRA).

Electronic Gaming Machines

A learning block designed for tribal gaming regulators and operations personnel. It will explore various components of EGMs and other regulatory subject matter such as Accounting/Event Meters, EGM Report Capabilities, PAR Sheet analysis, Random Number Generator, and many other topics.

IT Threats for Casinos

A learning block offered to tribal gaming regulators and operations personnel. The course will focus on current and trending threats to IT systems and security within the technology framework in Casinos. Focusing on threats, vulnerabilities and processes, this block will provide real time information on what risks exist and how best to combat them.

Class II Gaming System Verification

A learning block offered to tribal gaming regulators and operations personnel. The course will focus on why verification of the system is important and discuss the BMM Signature 2.0 tool and GLI Verify/Verify Plus.

Progressive

A learning block designed for tribal gaming regulators and operations personnel. It will explore various components of Progressive Systems and exploring the different types of Progressive Gaming Awards.

Gaming Forensics

A learning block offered to tribal gaming regulators and operations personnel. It will explore various strategies, best practices, and other guidelines available for regulators and other tribal gaming personnel in dealing with equipment malfunctions and thefts.

Game Authorization Terminal

A learning block offered to tribal gaming regulators and operations personnel. The course will introduce attendees to GSAs G2S protocol and the benefits for Regulators. It will explore access to information, download and configuration, remote software validation and other guidelines available for regulators and other tribal gaming personnel in dealing with the Game Authorization Terminal.

Class II Technical Standards

A learning block offered to tribal gaming regulators and operations personnel. The course will focus on the meaning and implementation of 25 C.F.R. Part 547, Class II technical standards. Particular attention will be paid to reviewing the technology submission and certification process, procedural requirements, and significant technical issues and requirements.
